ACADEMIC PROJECTS

Enterprise Architecture Proposal – Systems Architecture (CIS 239)

- Coordinated with a team to propose an IT-enhanced system for Parkhurst Dining
- Analyzed and diagnosed complications within the enterprise's system process
- Recommended an alternative path to improve the system's architecture

Construction of Personal Website – Intro to Web Design (ITEC 231)

- Designed a website to introduce myself and detail my interests
- Made use of HTML, CSS, and JavaScript, architecting a total of nine (9) webpages

EXPERIENCE

Teaching Assistant, Mathematics Department

09/19 – present

Towson University, Towson, MD

- Designed, co-authored and lead thirteen (13) weekly lesson plans over the course of a semester for students enrolled in statistics
- Coordinated with upper management in delegating the shifts assigned throughout the week
- Fostered learning by guiding and testing the knowledge of students in concordance with devised lesson plans
- Trained students in being self-critical and able to properly evaluate tasks in the absence of supervision

Resident Assistant, Housing & Residence Life

08/18 – present

Towson University, Towson, MD

- Supervised dorm life for over 400 residents in residence hall, taking charge of and quickly solving issues that may need guidance
- Devised and orchestrated monthly and weekly social events with the intent of establishing a familial environment for residents
- Cultivated experiences among blossoming community leaders as Resident Assistant Liaison for local Building Council
- Corresponded with Residence Life Coordinators, University Police, as well as other campus officials while on shift to ensure security and safety in residence hall
- Documented campus incidents, and consulted with Leadership regarding subsequent courses of action
